

Mammal Study

Merit Badge Workbook

This workbook can help you but you still need to read the merit badge pamphlet.

This Workbook can help you organize your thoughts as you prepare to meet with your merit badge counselor.

You still must satisfy your counselor that you can demonstrate each skill and have learned the information.

You should use the work space provided for each requirement to keep track of which requirements have been completed, and to make notes for discussing the item with your counselor, not for providing full and complete answers.

If a requirement says that you must take an action using words such as "discuss", "show", "tell", "explain", "demonstrate", "identify", etc, that is what you must do.

Merit Badge Counselors may not require the use of this or any similar workbooks.

No one may add or subtract from the official requirements found in Boy Scout Requirements (Pub. 33216 – SKU 637685).

The requirements were last issued or revised in 2015 • This workbook was updated in March 2018.

Phylum:			
Class:			
Order:			
Family			
Genus			
Species			

3. Do ONE of the following:

- a. Spend 3 hours in each of two different kinds of natural habitats or at different elevation. List the different mammal species and individual members that you identified by sight or sign.

1.	2.

Tell why all mammals do not live in the same kind of habitat.

- b. Spend 3 hours on each of 5 days on at least a 25- acre area (about the size of 3 1/2 football fields). List the mammal species you identified by sight or sign.

Day 1	Day 2	Day 3	Day 4	Day 5

- c. From study and reading, write a simple life history of one non-game mammal that lives in your area.

Tell how this mammal lived before its habitat was affected in any way by humans.

Tell how it reproduces, what it eats, and its natural habitat.

Describe its dependency upon plants, upon other animals (including humans), and how they depend upon it.

Tell how it is helpful or harmful to humankind.

4. Do ONE of the following:

a. Under the guidance of a nature center or natural history museum, make two study skins of rats or mice.
